Inwood Christian School SWOT Analysis & Long-Range Planning Night

Our school will be conducting a SWOT Analysis on March 12 at 7:00 PM, and we want to invite parents and society members to join the school board and teachers for this important long-range planning activity.

A SWOT Analysis is a structured discussion that helps an organization identify its Strengths, Weaknesses, Opportunities, and Threats. As a school, this process allows us to celebrate what we do well, examine areas for growth, recognize new opportunities, and consider challenges we may face in the future.

The benefit of conducting a SWOT Analysis together is that it brings many perspectives to the table. Input from families and society members helps ensure that our planning reflects the needs, hopes, and vision of our entire school community. The insights gathered will help guide future decisions, priorities, and strategic goals.

We encourage all interested parents and society members to attend and contribute as we work together to strengthen and plan for the future of our school. Please contact the school office by March 9 if you are interested in participating in this evening of planning.

We look forward to seeing you on March 12! The meeting will begin at 7:00 PM and refreshments will be available at 6:45 PM.

At the meeting we will consider the following items ---

Strengths – What Are We Doing Well?

- What do we do particularly well as a school?
- What are we most proud of about our academics, faith formation, or student culture?
- What programs, traditions, or practices set our school apart?
- What do parents and students frequently compliment?
- What are our greatest assets (staff, facilities, community support, values)?

Weaknesses – Where Can We Improve?

- Where do we struggle or fall short?
- What concerns do we hear most often from parents or students?
- Are there programs or systems that need improvement or updating?
- Where do we feel stretched or limited (staffing, resources, communication)?
- What would we improve if we had the time or resources?

Opportunities – What Could We Do Better or Expand?

- What new programs, partnerships, or initiatives could benefit our school?
- Are there unmet needs in our community we could address?
- How could we strengthen enrollment, retention, or community engagement?
- What trends in education, technology, or society could we leverage?
- What resources or support might be available that we are not fully using?

Threats – What Challenges Could Impact Us

- What challenges could negatively affect enrollment or sustainability?
- Are there demographic, financial, or cultural changes impacting schools like ours?
- What competition or alternatives might families consider?
- Are there regulations, costs, or staffing issues we should plan for?
- What risks should we prepare for to ensure long-term stability?
